Get ready to use them.

## The Honors Difference

If you're always seeking your next challenge and looking for ways to grow, you'll find a perfect fit in the Drake Honors Program.

Drake's honors program complements any major, or combination of majors—from Business and Theatre Arts to Biology and Pharmacy— and provides a unique opportunity for intellectual enrichment via emphasis on interdisciplinarity. When you declare the honors track, you will enroll in honors courses rather than the general education classes required by Drake. Honors courses have fewer than 20 students; cover unique subjects; and emphasize working closely with faculty to strengthen independent thinking, conceptual creativity, and leadership skills.

Are you up for the challenge?

Visit [drake.edu/honors](https://drake.edu/honors) for more information.

**Priority application deadline is March 1.**
